Welcome

Yukti Garments was established in July 2002 with the aim of providing quality uniforms and related apparels at prices that provide value for your money. We offer an extremely convenient "One stop shop", including services such as embroidery and timely delivery. We specialize in manufacturing uniforms for private security, facilities management, sports, formal wear, hospitably, educational and industrial wear.

We provide ourselves on our :

- Timely deliveries, no matter how large or small your order is.
- Hassle-free deliveries / You will not have to deal with any middle men.
- Factory direct prices, ensuring value for money.

Work Force

We currently employ 40 people, including machine operators, production teams, merchandising teams, quality control inspectors and sales staff. As a team, we are able to design and produce any garments to suit your tastes, may it be for school, corporate or industrial wear.

Production Team

Having both a tailoring unit and a mass production unit means we are equipped to deal with orders of any size. Our tailoring unit allows us to customize individual garments by hand, while our mass production team uses a garments unit to ensure quality control and large output levels.
